## Reference for Sky Invest and its owner Andrzej Konik

I had the pleasure of working with Sky Invest, owned by Andrzej Konik, throughout the entire process of purchasing my apartment. From the very beginning, during the stage of defining my expectations, Mr. Konik guided the conversation in a way that allowed us to thoroughly discuss every aspect of buying a property – including those I hadn't considered myself or didn't have enough knowledge about.

The offer he proposed (which wasn't even officially available on the market yet) matched my expectations perfectly. Mr. Konik then proceeded to negotiate the price. Thanks to his experience and skills, the final amount was agreed upon in a way that satisfied both parties involved in the transaction.

He also recommended a specialist who supported us with the financing process. During all subsequent steps – the preliminary agreement, the final contract, the handover of the apartment, and the handover protocol – we were professionally guided and received clear answers to every question we asked.

All of this makes me genuinely recommend Sky Invest services to anyone planning to purchase an apartment.
